SEABEE SPARES DISTRIBUTION AND PRICE LIST

We are now able to start initial shipment of Distributors' Shelf Spares for the Seabee. Attached is a suggested list of items which should be stocked immediately by each Distributor and eventually by each Dealer. This suggested shelf stock is based on 1946 spare parts consumption. In some cases the attached list may not agree with catalog #1000, since a number of changes were made after the catalog was sent to print.

Two copies of the list are enclosed. One may be retained for your own use and information, the other can be used by you when ordering your initial stock. Simply check items and quantities required, attach to your purchase order, and forward to us.

We feel that each Distributor should order the items as indicated. However, some Distributors having greater activity than others may need a larger quantity of certain items; therefore, each Distributor should review the items and quantities in terms of his own operation.

Factory production is sufficiently advanced to permit immediate shipment on most items; some items, still critically short, will be forwarded as production permits. Purchase orders will be filled in order of receipt. In the interim, emergency shipments will continue as required.

Also attached is the Seabee Spare Parts List. The format of this price list has been designed to permit easy insertion in the Seabee Parts Catalog #1000. Sufficient copies are being forwarded to permit the same distribution that you made of Catalog #1000.

SEABEE SPARES DISTRIBUTION AND PRICE LIST (CONT)

Prices in this list refer to items appearing in Seabee Parts Catalog #1000. Numerous changes have been made since this catalog was printed; therefore, this price list includes cancellations and additions not appearing in the catalog. When ordering, list parts required by item number and nomenclature and if possible Seabee serial number. Prices quoted are F.O.B. Farmingdale, New York, include the cost of crating or packaging and are subject to change without notice, in accordance with the terms and conditions of the Republic Distributor Agreement.

It will be noted that each line contains Item Number, Nomenclature, Code and List Price. The Code letter refers to the discount schedule. Revisions to the price and the price list will be furnished periodically.
